I. APPLICATION SUBMISSION REQUIREMENTS

Applications for funding under the Round 16 Farmland Protection Implementation Grants (FPIG) Program – Dairy Transitions Farmland Protection Initiative must conform to the format provided in the Grants Gateway. **APPLICATIONS MUST BE SUBMITTED via the Grants Gateway** to be considered for funding. Faxed, mailed or e-mailed applications will not be accepted.

II. QUESTIONS AND ANSWERS

All questions about requirements contained in this RFA must be submitted in writing (via mail or delivery service or by facsimile or e-mail) to:

David Behm  
NYS Dept. of Agriculture and Markets  
10B Airline Drive  
Albany, New York 12235  
Fax: (518) 457-3412  
E-mail: david.behm@agriculture.ny.gov

To the degree possible, each inquiry should cite the RFA title, section and paragraph to which it refers. Applicants should note that all clarifications are expected to be resolved prior to the submission of an application. A list of questions about the program received from potential applicants, and answers to those questions, as well as any changes, additions or deletions to the RFA, will be posted in the “Funding Opportunities” section of the Department’s web site, [www.agriculture.ny.gov](http://www.agriculture.ny.gov), under the heading “Questions and Answers” along with the electronic version of this RFA. Questions and responses will be posted as questions are received. **Applicants are urged to check the Department’s web site frequently for notices of any changes, additions or deletions to the RFA.** If you are unable to access the web site, please contact David Behm to arrange for alternate delivery. All questions and answers shall become a formal addendum to the RFA.

III. GENERAL PROGRAM INFORMATION

A. Intent of Request for Applications (RFA)

The New York State Department of Agriculture and Markets (the “Department”) invites applications for financial assistance to implement certain farmland protection activities described in or otherwise consistent with agricultural and farmland protection plans that have been adopted by counties or municipalities.

Grant applications will be accepted on a continuous basis. The RFA will remain open and awards will be made until such time as available funds are fully committed, or the RFA is closed.

B. Background

Article 25-AAA of the Agriculture and Markets Law authorizes the Commissioner to maintain a State agricultural and farmland protection program to provide financial and technical
assistance, within funds available, to assist locally-led efforts in developing agricultural and farmland protection plans and in the implementation of such plans.

C. Purpose

The purpose of this funding opportunity is to provide State financial assistance to enable local initiatives that are intended to maintain the economic viability of the State’s agricultural industry and its supporting land base and to protect the environmental and landscape preservation values associated with agriculture.

Dairy farming is the largest component of New York’s agricultural economy, accounting for approximately one-half of its on-farm production, support services and value-added products. Further, a dairy is typically the largest-sized type of farm operation in New York. Accordingly, ensuring that the viable agricultural land base of an operating dairy farm is protected from conversion to non-farm uses will be essential to help ensure the long-term viability and sustainability of the agricultural sector of the state’s economy. The continuing financial crisis affecting dairy farmers due to prolonged historic low milk price supports has increased the threat for an unprecedented conversion of some of these viable agricultural lands to be lost to non-farm development.

This grant opportunity is being offered to enable eligible applicants to specifically implement Conservation Easement Projects with owners of viable agricultural lands that are associated with a dairy Farm Operation at risk of conversion to non-farm uses. Proceeds from the sale of a conservation easement (known as Purchase of Development Rights, or PDR) on viable agricultural land will offer these landowners an opportunity to either reinvest those monies to enable greater diversification of the farm operation or the transfer of ownership to a new owner of the same or different type of farm operation. Moreover, the viable agricultural land permanently protected as the result of each awarded Conservation Easement Project will remain in continuing agricultural use.

IV. ELIGIBILITY

A. Applicant Eligibility

Applications for funding will only be accepted from:

1. any county agricultural and farmland protection board in a county with an approved county plan developed pursuant to Section 324 of Article 25-AAA of the Agriculture and Markets Law; OR

2. any municipality which has in place a local farmland protection plan, provided the proposed project is endorsed for funding in a letter provided by the agricultural and farmland protection board for the county in which the municipality is located; OR

3. any not-for-profit conservation organization that will assist a county or municipality to implement a county or municipal agricultural and farmland protection plan approved by the commissioner, provided the proposed project is endorsed for funding in a letter provided by the county agricultural and farmland protection board for the county in which the proposed project is located and the proposed project must also be endorsed for funding in a letter provided by the municipality in which the proposed project is located; OR
any soil and water conservation district that will assist a county or municipality to implement a county or municipal agricultural and farmland protection plan approved by the commissioner, provided the proposed project is endorsed for funding in a letter provided by the county agricultural and farmland protection board for the county in which the proposed project is located and the proposed project must also be endorsed for funding in a letter provided by the municipality in which the proposed project is located.

For purposes of this section, a “local farmland protection plan” may include a town, village or city comprehensive plan as defined in the Town Law, the Village Law, or General City Law, if such plan includes an element which considers agricultural uses and needs; an open space plan adopted by the municipality which presents strategies for the preservation of viable agricultural land; or any other formal agricultural and farmland protection planning document provided that if the plan was developed on or after January 1, 2006, it must comply with section 324-a of Article 25-AAA of the Agriculture and Markets Law. Any applicant intending to submit an application for the first time for a proposed farmland protection implementation project is urged to contact the Department regarding the applicant’s eligibility prior to submitting its application. Any application submitted by an ineligible applicant shall not be considered for funding under this RFA.

The applicant must be the entity that is the Grantee (or “holder”) of the perpetual agricultural conservation easement. If there will be more than one Grantee, then each Grantee must be identified as a Joint Applicant on the application submitted in response to this RFA and only one of those Joint Applicants shall be identified in that application as the Lead Applicant. If awarded, the State will enter into a funding agreement with only the Lead Applicant.

New York State vendors must register in the Grants Gateway to become established users in the system. Therefore, each entity that intends to submit an application in response to this RFA must be registered. If your entity has not registered, you will be unable to access this grant opportunity and unable to submit any applications.

Furthermore, all not-for-profit conservation organizations that intend to submit an application must also be pre-qualified prior to the submission of your application(s). If your not-for-profit conservation organization has not pre-qualified in the Grants Gateway by the time you submit your application(s), each application you submit will be rejected. However, each rejected application may be resubmitted and considered for funding under this RFA once your not-for-profit conservation organization has become pre-qualified provided this RFA is open to receive applications and make awards by the time that the application is resubmitted.

B. Project Eligibility

Eligible projects are limited only to Conservation Easement Projects on dairy Farm Operations on viable agricultural land that are transitioning to:

1. the next ownership of a continuing dairy, but whose operation has been modified to ensure greater financial sustainability,
2. a more diversified overall Farm Operation, while continuing, at least in part, as a dairy, or
3. a different type of non-dairy Farm Operation.
However, none of the following lands are eligible under this RFA:

- Lands under public ownership, or
- Lands subject to an existing conservation easement (regardless of its duration).

Viable agricultural land means land highly suitable for a Farm Operation as that term is defined in Section 301 of Article 25-AA of the Agriculture and Markets Law.

An eligible project must satisfy all project eligibility criteria:

1. dairy Farm Operation (including those that may have already sold its dairy cows within the 12 months prior to submitting an application);
2. region-specific 1 minimum acreage (i.e., size of Conservation Easement Project);
3. region-specific 1 minimum percentage (%) for Extent of Active Agricultural Production;
4. minimum of five percent (5%) for sum of Prime Soils (not “Prime if drained”) plus Soils of Statewide Importance (not “Prime if drained” and not “Unique”);
5. site plan for the Conservation Easement Project that is fully consistent with Department guidance regarding land planning for an agricultural conservation easement project (please refer to “Policy Guidance” on page 10 of this RFA); and
6. use of one of the following conservation easements:
   a. Department’s “2016 Model Agricultural Conservation Easement” (or the most current subsequent version available) without modification thereto, OR
   b. applicant easement containing the Department’s “FPIG Program Required Easement Provisions (2016 version)” (or the most current subsequent version available) without modification thereto, provided the applicant easement:
      i. contains no reference to §247 of New York State General Municipal Law, and
      ii. shall not unreasonably restrict or regulate Farm Operations in contravention of the purposes of Article 25-AA of the Agriculture and Markets Law, and
      iii. must be consistent with the “Purpose” and “Implementation” provisions as required by the Department.

To be eligible for funding under this RFA, each proposed project must be located in areas proposed to be protected in a county’s or a municipality’s agricultural and farmland protection plan (i.e., pursuant to Section 324 or Section 324-a, as applicable, of Article 25-AAA of the Agriculture and Markets Law). Furthermore, each proposed project must be endorsed for funding in a letter provided by the agricultural and farmland protection board for the county in which the proposed project is located. If the applicant entity associated with the proposed project is a not-for-profit

---

1 Please refer to Appendices A-1 through A-5 for the region-specific minimum requirement for the particular region (i.e., Central, Eastern, Hudson Valley, Long Island, or Western) in which the proposed project is located. Each region-specific minimum requirement is based on previously awarded Conservation Easement Projects associated with a dairy Farm Operation.
conservation organization or a soil and water conservation district, the application must also be endorsed for funding in a letter provided by the municipality in which the proposed project is located.

Each proposed project must be associated with at least one (1) Farm Operation (as that term is defined in Section 301 of Article 25-AA of the Agriculture and Markets Law). However, any given Farm Operation may be the subject of more than one application provided that requested funding does not overlap the same land. Any application that does not involve at least one (1) Farm Operation will not be considered for funding under this RFA.

V. DETAILED SPECIFICATIONS AND DELIVERABLES OF THE FUNDING AGREEMENT

A. Anticipated Time Frames

The start date for initially awarded funding agreements (i.e., those FPIG contracts between the State and the awarded applicant entity) resulting from this RFA is anticipated to be on or around August 31, 2018. Each funding agreement shall have a four-year contract period.

B. Available Funds

The Department has made available $30.0 million for awards (including up to $1.5 million for potential subsequent contingency awards as authorized (see “Contingency Awards” of Section VIII, “Application Review and Awarding of Successful Applications”) under this RFA through an open application and awards process with $5.7 million available within each of five (5) regions across the state (see Figure 1 on the next page).

After June 28, 2019, the Commissioner may award available funds to eligible projects without regard to regional boundaries provided that all projects awarded thereafter are made in the order of the date on which the Department determined that each such project was eligible for an award.
The following general limitations apply to all applications:

- No award shall exceed $2.0 million.
- State contribution toward easement stewardship shall be $10,000 per easement, subject to the maximum award amounts noted immediately above.

C. Project Costs

(1) Eligible Project Costs

**Eligible project costs** associated with **Conservation Easement Projects** are:

1. value of the development rights being acquired, provided such value associated with any perpetual conservation easement is from an appraisal deemed acceptable to the Department; and
2. transaction costs acceptable to the Department, provided those are limited to:
   - (a) title reports (including associated continuation fees if title insurance is purchased);
   - (b) title insurance (if purchased);
   - (c) property surveys;
   - (d) appraisal(s) (one per donated agricultural conservation easement);
   - (e) applicant’s legal fees to negotiate/close the conservation easement transaction and to review title reports and, as necessary, prepare title curatives;

Figure 1: FPIG Allocation Regions
(f) applicant’s and other project partners’ staff time to negotiate/close the conservation easement transaction, manage the preparation/compilation of required deliverables, and locally administer the awarded funding agreement;

(g) preparation of a baseline documentation report regarding the proposed Conservation Easement Project;

(h) environmental site assessment *(if deemed necessary)*;

(i) recording fees;

(j) easement stewardship fee; and

(k) conservation easement defense liability insurance.

(2) Ineligible Project Costs

Any costs incurred prior to the start date of a funding agreement shall not be deemed eligible costs under this RFA. Furthermore, the following are ineligible project costs:

- landowner’s cost for legal or financial advisors;
- state or local real estate transfer taxes;
- any fee or other contribution deposited to a legal defense fund other than a conservation easement defense liability insurance policy; and
- indirect or overhead costs (i.e., office rent, office utilities, and any other cost that is indirectly incurred); and
- Option to Purchase at Agricultural Value (OPAV) or Preemptive Purchase Right (PPR) or Right of First Refusal (RFR) or similar provision contained in any document (e.g., purchase agreement, conservation easement, etc.) associated with any Conservation Easement Project awarded through this RFA.

D. Match Requirements

The following general requirements apply to all applications:

- Any governmental entity providing a cash contribution must provide a letter from an authorized representative formally acknowledging its proposed contribution.
- As applicable, any other entity (including participating landowners) providing a local cash match must provide a letter from an authorized representative formally acknowledging the amount of its contribution.
- None of the local cash contribution(s) shall be from a State source.
- Cash and in-kind match shall only be used to cover the expense of eligible project costs.

---

2 If the applicant is a governmental entity and its proposal receives an award through this RFA, that governmental entity must submit a copy of a resolution from its governing body formally obligating its cash match before the State will approve a funding agreement with that successful applicant.
• Cash and in-kind match may be provided by the applicant or other supporters of the project.

• Local match may include in-kind contributions, but the amount of in-kind contributions shall be limited to no more than 80% of total administrative costs of the proposed project, or $25,000, whichever is less.

Furthermore, there are particular match stipulations for each of the differing levels of State contribution awarded as noted below and in the table on the next page.

(1) Proposals seeking a State contribution of 87.5% of total eligible project costs:

• Landowner must **exclusively** provide the local match contribution of 12.5% of total eligible project costs. No other source shall provide any cash or an in-kind contribution of any amount toward the proposed Conservation Easement Project.

(2) Proposals seeking a State contribution of **up to** 75.0% of total eligible project costs:

• Local match contribution must be at least 25.0% of total eligible project costs, which must include a cash match of 5% of total project costs or $5,000, whichever amount is less. However, the local cash match requirement is waived whenever a participating landowner donates the **full value** of development rights for the conservation easement(s) comprising the entire proposed Conservation Easement Project.

• Local cash contribution may be provided, but only in part, by the participating landowner(s).

E. Policy Guidance

The Department is providing the following guidance documents to assist in the compilation of an application and all required project deliverables:

- “Farmland Protection and Agricultural Districts (GD#1)”;
- “Developing a Land Plan for an Agricultural Conservation Easement (GD#3)”;
- “Conservation Easements – Title Curative Letter”;
- “2016 Model Agricultural Conservation Easement” (recommended for all Conservation Easement Projects);
- “Farmland Protection Implementation Grants (FPIG) Program Required Easement Provisions (2016 version)” (if the Department’s model conservation easement is not used, then these provisions are required to be incorporated into the applicant’s conservation easement document); AND
- “Appraisals for Conservation Easements (GD#6)”.

The Department’s Division of Land and Water Resources shall evaluate the proposed conservation easement document and proposed site plan for conformance with Department policies contained in the guidance documents listed above.

Any conservation easement or site plan deemed by the Department’s Division of Land and Water Resources to be unacceptable shall not be eligible for a disbursement.

All applicants are urged to submit applications and subsequent project deliverables that embody the following expectations.

Pursuant to GD#1 (page 2):
The critical right to farm protections of the Agricultural Districts Law (Article 25-AA including Sections 303, 305 and 308) guide NYSDAM in its administration of the farmland protection program and in its review of various aspects of farmland protection projects including land use planning and conservation easement drafting. Consequently, NYSDAM will review proposed easement language to determine that proposed projects are not unreasonably restrictive of farm operations.

Pursuant to GD#3 (page 1):
The land plan and conservation easement should:
- Provide opportunities for active, economically viable Farm Operations on protected farmland now and in the future.
- Establish adequate flexibility for farmers operating on protected farms to grow, adapt and change to new market conditions.
- Create opportunities for farmers to own protected farms with the ability to develop housing for farm families and farm labor, agricultural buildings and structures that support rural businesses compatible with agriculture.
• Reduce the likelihood of conflicts between farmers operating on protected farms and their non-farm neighbors.

• Facilitate the protection of natural resources in a manner compatible with commercial Farm Operations, consistent with the provisions of the Agricultural Districts Law and reasonably within the stewardship capacity of the conservation easement holder.

Ultimately, the right to farm protections of Article 25-AA of the Agricultural Districts Law (including Sections 303, 305 and 308) will guide NYSDAM in its review of various aspects of farmland protection projects including land planning and conservation easement drafting (See Guidance Document #1, “Farmland Protection and Agricultural Districts”).

F. Project Deliverables

Preliminary Review

All Conservation Easement Projects must receive the Department’s preliminary approval before proceeding to compile a complete project file. The project deliverables required for a preliminary review are described as follows:

(1) **Title report plus title curatives letter** from Grantee attorney explaining how clear title will be ensured for the proposed conservation easement transaction;

(2) **Draft conservation easement(s)** associated with the proposed project, provided:

   • For **Conservation Easement Projects receiving an award of 87.5% of total project costs**, the red-lined³ draft document submitted shall use the Department’s 2016 version as its template.

   • For **Conservation Easement Projects receiving an award of up to 75.0% of total project costs**, the red-lined⁴ draft document submitted shall be the Grantee’s proposed easement into which the Department’s required provisions (2016 version) have been incorporated without modifications thereto. Further, all other provisions of the Grantee’s proposed easement must be consistent with the “Purpose” and “Implementation” provisions as required by the Department.

(3) **Site plan (only if it has been modified from that represented in applicant’s grant proposal)** for each draft conservation easement that has been signed by all owners of

³ A **red-lined version of the Department’s conservation easement** is merely a digital file (Word document format) which had “track changes” feature turned on before any modification was made to the original digital file of the Department’s 2016 version. Thus, the resulting “red-lined” version **shall reveal all modifications** made to it.

⁴ A **red-lined version of the applicant’s conservation easement** is merely a digital file (Word document format) which had “track changes” feature turned on before any of the Department-required provisions (2016 version) were incorporated into it. Thus, the resulting “red-lined” version **shall reveal all of the required insertions**.
the land associated with each draft conservation easement and that has also been signed by a representative of the Grantee.

These project deliverables must be submitted within six (6) months of state approval of the funding agreement.

Preliminary review of the proposed project may include the Department’s Farmland Protection Program Manager conducting a site visit with the Grantee and participating landowner(s), but only if the site plan has been modified from that represented in the applicant’s grant proposal. If the site visit reveals information or landscape conditions that are either inconsistent with the Department’s guidance documents or deemed otherwise unacceptable to the Department and any such matters cannot be resolved to the satisfaction of the Department, the Department may terminate the funding agreement and withdraw the State award.

Project File

After the Department has given its preliminary approval of the proposed Conservation Easement Project, the local project manager shall compile and must submit (within eighteen (18) months of state approval of the funding agreement) these required project deliverables (referred to as a project file):

1. **Landowner Letter of Intent to Convey Conservation Easement(s) on Viable Agricultural Land** that has been signed by each owner of the land to be subject to each conservation easement comprising the proposed project;

2. **Financial Worksheet**;

3. **Appraisal report** (submitted as one (1) digital file (PDF) plus two (2) paper copies of each appraisal report);

4. **Final draft conservation easement(s)** associated with the proposed project, provided each such final draft is an updated red-lined version of the document that received the Department’s preliminary approval as noted above;

5. **Certification of Title Curatives** from Grantee attorney plus
   - (a) copies of any attachments referenced in the certification,
   - (b) copies of all proposed title curatives,
   - (c) a copy of the cover sheet of commitment for title insurance indicating the amount of proposed coverage, and
   - (d) (only if any new title issues have been discovered during the preparation of the commitment for title insurance that must now also be addressed) a boundary survey of the proposed easement area; and

6. **Waiver** (of preliminary/final notice of intent) that is fully executed by all signatory parties.

---

5 This document is not required IF the Grantee is a not-for-profit conservation organization AND no other public funds are associated with the project (i.e., no funds contributed from a Federal agency, or a county, or a municipality).
Final Report

After the Department approves the project file, a complete final report must be submitted by the local project manager to the Department within one hundred twenty (120) calendar days of receipt of interim payment #2. The compilation of required project deliverables (referred to as a final report) are as follows:

1. **Conservation Easement Closing Certification** that has been signed by the local project manager and the Grantee’s attorney;
2. **Title insurance policy**;
3. **conservation easement defense liability insurance policy** (if applicable);
4. **Conservation easement(s)** as recorded in the county(ies) in which the subject lands are located; and
5. **FPIG Project Closing Statement** (spreadsheet) plus supporting documentation as noted thereon.

VI. ADMINISTRATIVE REQUIREMENTS AND RELATED CONSIDERATIONS

A. Issuing Agency

This RFA is issued by the New York State Department of Agriculture and Markets. The Department is responsible for the requirements specified herein and for the evaluation of completeness of all applications.

B. The Department’s Reserved Rights

The Department reserves the right to:
1. Reject any or all applications received in response to this RFA.
2. Withdraw the RFA at any time, at the Department’s sole discretion.
3. Make an award under the RFA in whole or part.
4. Award more than one funding agreement to the same successful applicant resulting from this RFA.
5. Disqualify any applicant whose conduct and/or application fails to conform to the requirements of the RFA.
6. Seek clarifications and revisions of applications.
7. Amend the RFA specifications to correct errors or oversights, or to supply additional information, as it becomes available and with appropriate written notice to all potential applicants by posting amendments on the Department web site ([www.agriculture.ny.gov](http://www.agriculture.ny.gov)) and on the New York State Grants Gateway ([https://grantsgateway.ny.gov/IntelliGrants_NYSGG/module/nysgg/goportal.aspx](https://grantsgateway.ny.gov/IntelliGrants_NYSGG/module/nysgg/goportal.aspx)).
8. Direct applicants to submit application modifications addressing subsequent RFA amendments.
9. Change any of the scheduled dates.
10. Waive any requirements that are not material.
11. Waive or modify minor irregularities in applications received after prior notification to the applicant.
12. Require clarification at any time during the grant process and/or require correction of arithmetic or other apparent errors for the purpose of assuring a full and complete
understanding of an offerer’s application and/or to determine an offerer’s compliance with the requirements of the RFA.

13. Negotiate with successful applicants any matter within the scope of the RFA in the best interests of the State.

14. Eliminate any mandatory, non-material specifications with which all applicants cannot comply.

15. The value of in-kind services must be reasonable and documented to the satisfaction of the Department, and such value and documentation are subject to adjustment by the Department.

16. Make all final decisions with respect to the amount of State funding and the timing of payments to be provided to an applicant.

C. Term of Funding Agreement

Each funding agreement shall be for a four-year term. However, if each performance measure is achieved by the contract milestone described in Attachment D of the funding agreement, each proposed Conservation Easement Project should be completed within two (2) years from the date of State approval of the funding agreement.

Continued funding throughout this period is contingent upon satisfactory contractor performance and availability of funds. The Department also reserves the right to revise the funding amounts for awards as necessary due to changes in the availability of funds.

D. Payment & Reporting Requirements of Successful Applicants

Each funding agreement will contain a table of milestones, which shall include a schedule of payments authorized under that awarded funding agreement (refer to “Payment and Reporting Schedule” table, on next page).
## Conservation Easement Projects - PAYMENT AND REPORTING SCHEDULE

<table>
<thead>

(After receipt of Interim Payment #2) | **Submission of Final Report for Review:**  
  - Conservation Easement Closing Certification  
  - Title insurance policy  
  - Easement defense liability insurance policy *(if applicable)*  
  - Copy of each recorded Conservation Easement  
  - **Closing Statement** spreadsheet | **Final Payment** includes:  
  - Easement stewardship (@ $10,000 per easement)  
  - Conservation easement defense liability insurance |
| - - | **Department approval of Final Report.** | **Final Payment** includes:  
  - Easement stewardship (@ $10,000 per easement)  
  - Conservation easement defense liability insurance |

---

<sup>6</sup> **Successful applicant must adhere to the anticipated dates for the specified milestones and project deliverables to ensure prompt completion of the projects associated with funding agreements awarded through this RFA; doing so will enable efficient and predictable State disbursements. Failure to achieve the noted milestone may result in termination of that funding agreement upon the Department’s examination of the circumstances surrounding the delay.**

<sup>7</sup> **All payments are disbursed on a first approved, first paid basis. All disbursements to successful applicants are as authorized by the NYS Division of the Budget and the NYS Office of State Comptroller.**

RFA0186-Round 16 FPIG-RFA 17
E. Vendor Access to Grants Gateway

New York State vendors must register in the Gateway and establish users in the system. To start this process, from the Grant Opportunity Portal (https://grantsgateway.ny.gov/IntelliGrants_NYSGG/module/nysgg/goportal.aspx), under Registration, click “Request Access Now!” to view your options.

For existing NYS vendors, there is only one step. You must submit a Registration Form for Administrators identifying a Delegated Administrator responsible for managing your organization’s profile and users.

To find out if your organization has already registered, enter its SFS Vendor ID number and search. If your organization is registered, the search result will include contact information for its delegated administrator, and you can contact this individual to request access to the system. If your organization is not registered, the search result will provide a link to the Request Form for Administrator, which you will need to complete and submit pursuant to the instructions provided.

If your organization is not currently doing business with NYS, you will need to submit a Substitute W-9 Form to obtain a NYS SFS Vendor ID, in addition to the Registration Form for Administrators, in order to register.

Therefore, each entity that intends to submit an application in response to this RFA must be registered. If your entity has not registered prior to the submission of your application(s), each application you submit will be rejected and not considered for funding under this RFA.

Furthermore, all not-for-profit conservation organizations that intend to submit an application in response to this RFA must also be pre-qualified prior to the submission of your application(s). If you have not pre-qualified in the Grants Gateway by the time that you submit your application(s), each application you submit will be rejected and not considered for funding under this RFA. For more information regarding the pre-qualification process, please view the Vendor Prequalification Manual and Maintaining Prequalification as provided by the New York State Grants Reform Team.

Agate Technical Support Help Desk:
Phone: 1-800-820-1890
Hours: Monday through Friday 8:00 am to 8:00 pm
Email: helpdesk@agatesoftware.com
(User roles and system questions)
F. General Specifications

1. **Contractors** will possess, at no cost to the State, all qualifications, licenses and permits to engage in the required business as may be required within the jurisdiction where the work specified is to be performed. Workers to be employed in the performance of this funding agreement will possess the qualifications, training, licenses and permits as may be required within such jurisdiction.

2. Submission of an application indicates the applicant's acceptance of all conditions and terms contained in this RFA, including the terms and conditions of the funding agreement. Any exceptions allowed by the **Department** during the question and answer phase (Section II) must be clearly noted in a cover letter attached to the application.

3. Provisions Upon Default
   a. In the event that the Applicant, through any cause, fails to perform any of the terms, covenants or promises of any funding agreement resulting from this RFA, the **Department** acting for and on behalf of the State, shall thereupon have the right to terminate the funding agreement by giving notice in writing of the fact and date of such termination to the Applicant.

G. Miscellaneous Considerations

1. New York State Environmental Quality Review Act Requirements (SEQRA). Some projects may be subject to review under SEQRA. Municipalities should go to the New York State Department of Environmental Conservation web site [www.dec.ny.gov](http://www.dec.ny.gov) for further information regarding applicability.

2. Freedom Of Information Law (FOIL). All applications submitted and all related funding agreements and reports may be subject to disclosure under the Freedom of Information Law.

3. Liability. The **Department** shall not be held liable for any costs incurred by any party for work performed in the preparation of and production of an application or for any work performed prior to the formal execution of a funding agreement.

VII. COMPLETING THE APPLICATION

A. Application Format

Applications must be submitted through the New York State Grants Gateway. All sections of the application must be completed in order for you to be enabled to submit your digital application.

B. Application Content

Applicants must respond to each of the sections as provided in the Grants Gateway to create each application to be submitted to the Department. Each application is comprised of responses to Program Specific Questions (including the uploading of certain completed forms or other required documentation) and developing a scope of work for the proposed Conservation Easement Project.
Please be advised that there are space limits for your response to each question in the online application. Evaluation of your application will be limited to review and consideration of only the information contained in your responses comprising your application. Material that is not required or otherwise specifically requested to be included in the application should not be submitted.

For information regarding how to navigate the online application, please refer to the “Grants Gateway Application Submission Instructions” document available on Grants Gateway associated with this grant opportunity or as posted on the Department’s web site (“Funding Opportunities” web page).

C. Number of Applications

There is no limit to the number of applications that may be submitted by an eligible applicant (whether as a single or joint applicant or in combination thereof) in response to this RFA.

VIII. APPLICATION REVIEW AND AWARDING OF SUCCESSFUL APPLICATIONS

A. Review Process

1. Pass / Fail Criteria

Applications must be submitted via the New York State Grants Gateway. Applications will be assigned a unique number based on the order of its creation in the Grants Gateway.

Grant applications will be accepted on a continuous basis. The RFA will remain open and awards will be made until such time as available funds are fully committed, or the RFA is closed.

All applications will be reviewed on the following pass/fail criteria. Any application that fails any one of these criteria will be rejected:

1. application describes a project that meets or exceeds the region-specific minimum acreage requirement;
2. application describes a project that meets or exceeds the region-specific minimum percentage (%) for extent of active agricultural production;
3. application describes a project that meets or exceeds five percent (5%) for the sum of Prime Soils (not “Prime if drained”) plus Soils of Statewide Importance (not “Prime if drained” and not “Unique”);
4. application contains a site plan for the Conservation Easement Project that is fully consistent with Department guidance regarding land planning for an agricultural conservation easement, and;
5. application contains one of the following as its proposed conservation easement:
   a. Department’s most current “Model Agricultural Conservation Easement” without modification thereto, OR
   b. applicant conservation easement containing the Department’s most current “FPIG Program Required Easement Provisions” without modification thereto, provided the applicant easement:
i. contains no references to §247 of New York State General Municipal Law, \textit{and}

ii. shall not unreasonably restrict or regulate Farm Operations in contravention of the purposes of Article 25-AA of the Agriculture and Markets Law, \textit{and}

iii. must be consistent with the “Purpose” and “Implementation” provisions as required by the Department.

Eligible applicants may resubmit a previously rejected application after addressing each failed criteria.

2. Advisory Council on Agriculture (ACA)

ACA members will be notified about and afforded the opportunity to provide comments to the Department’s Program Manager regarding those applications eligible for an award. Any comments received by the Program Manager shall be considered prior to an award being made to an applicant.

B. Determination of Awardees and Non-Awardees

The Department shall compile a list of eligible projects for award consideration. Awards shall be determined pursuant to the procedures described below.

1. Funding of Acceptable Projects and Notification of Awardees

All applications will be reviewed for eligibility and completeness based upon the respective regional Project Eligibility Criteria Checklist. All eligible applicants shall receive funding for approved project costs in the order that complete eligible applications are deemed acceptable for an award until all funds allocated for awards arising from the RFA are exhausted or until this RFA is closed. The Commissioner will notify successful applicants and provide information regarding funding agreements that will be forthcoming from the Department.

Applicants whose projects were not funded will be notified by the Land and Water Resources Division Director.

2. Funding Agreements

A funding agreement defining all terms, conditions and responsibilities shall be developed by the Department upon the State’s approval of an awarded application. New York State has developed a standard “Master Contract” containing standard clauses required in all State Contracts. The Master Contract will be used for all projects awarded under this RFA, and applicants are responsible for complying with the terms and conditions contained therein. The Master Contract can be found at \texttt{http://www.grantsreform.ny.gov/sites/default/files/docs/nys_master_contract_for_grants_42913.pdf}. Attachments to the Master Contract shall include: (A-1) “Specific Terms and Conditions of this Agreement”; (B-2) “Performance Based Budget”; (C) “Work Plan”; and (D) “Payment and Reporting Schedule”.

Once the funding agreement has been fully executed, State funds will be disbursed on the basis of scheduled payments subject to the “Payment and Reporting Schedule” described in the “Payment & Reporting Requirements of Successful Applicants” section of this RFA.
The **Department** and State Comptroller’s Office reserve the right to audit the Applicant’s books and records relating to the performance of the project during and up to six years after the completion of the project.

3. Contingency Awards

In addition to the funds that are initially awarded under this RFA, the **Department** will set aside approximately $1.5 million for a contingency fund to allow up to twenty percent (20%) in additional funding for unanticipated project cost increases. Subject to the 20% cap on additional funding, the applicant must provide a match for the total unanticipated project cost increases that is at least equal to the same percentage of match that was committed in the budget and the financial worksheet contained in the initially awarded funding agreement. Contingency funds will be made available to successful applicants on a first-requested, first-awarded basis based on the following criteria:

i. justification of need for supplemental funding;

ii. likely adverse consequences to project if supplemental funding is not provided;

iii. documentation of additional costs supporting a request for funding; and

iv. likelihood that the project will be successfully completed if funding is provided.

There will be no additional state monies available for cost increases once the contingency funds are exhausted. *Requests for contingency funds should not be included in the initial proposal; successful applicants may only request these funds after a funding agreement is in place.*

4. Debriefings

Following the announcement of the applicants awarded funding agreements under this RFA, unsuccessful applicants may request a debriefing from the **Department’s** Program Manager no later than fifteen (15) calendar days from the date of the non-award notification. This debriefing will be limited to a discussion of the failed aspects of the subject application. To request a review of an unsuccessful application, contact Ms. Judy Giovannetti, Division of Fiscal Management via e-mail at procurement.info@agriculture.ny.gov.
